Jan Marini Skin Research Age Intervention® Lash

...for long luscious lashes that you've always dreamed of!

This exclusive product promises noticeably longer, fuller and darker lashes to address short, thinning and missing eyelashes.

Thinning eyelashes and eyebrows affects an increasing number of women. Alopecia Areata, premature and timely menopause, hormonal imbalances and stress are all contributors of this physical and often heart-wrenching affliction.

Age Intervention Eyelash was developed by Jan Marini, a product researcher for over 30 years, to answer a very personal and specific issue: Marini's own struggle with Alopecia Areata.

“Age Intervention Eyelash delivers the lashes of your dreams!”

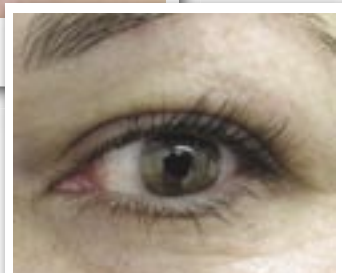

It was through researching Marini's personal struggle that she developed the amazing “Eyelash Growth Factor™” that is the secret to Age Intervention Eyelash.

Available as liquid eyeliner, simply paint the lash line once a day and expect rapid results – a difference in lash thickness is visible as early as the first three weeks. After three months lashes are so lustrous mascara need be a thing of the past. Jan Marini Age Intervention® Lash can also be used on over-plucked or naturally pale eyebrows and lashes.

Apply once a day in the evening to the lash line and use for three weeks and thereafter twice a week to maintain.
